Research Assistant in Strategy/Organization Design/Industrial Organization

Ludwig-Maximilians-Universität Munich (LMU) is one of the largest and most prestigious universities in Germany, involving an enormous range of activities and duties.

The Institute for Strategy, Technology and Organization at LMU Munich has an open position for a

Research Assistant (Strategy, Organization Design or Industrial Organization)

We are looking for a candidate with an outstanding Master's/Diploma degree in Business Administration, Management, Economics or a related field and strong motivation as well as demonstrated potential to conduct high-quality academic research. Candidates with a particular interest in strategic and organizational decision-making by firms are especially encouraged to apply. Methodological experience with econometric models is an advantage but no necessary condition. The candidate is expected to pursue a doctorate at the Institute. Remuneration follows the standard German pay scale (TV/L 13). The position is fixed-term (two years) with an option for extension. The starting date is 16 September 2013.

The Institute for Strategy, Technology and Organization at the Munich School of Management, LMU Munich, was established in 2006 and is supported by the Deutsche Telekom Foundation. It has close links to the Center for Industrial Organization and New Technologies at Munich's ifo Institute. Led by Professor Tobias Kretschmer, an applied economist, the Institute for Strategy, Technology and Organization comprises an interdisciplinary group of scholars trained in economics and management. Research at the Institute focuses on five main areas: Competition between firms, shifts in firm boundaries, organizational learning, organizational design, and the economics of information technology and media markets. The Institute's teaching profile includes specialized courses on Management and Economics of Network Industries and Competitive Strategy, as well as more general courses at the undergraduate, masters and PhD level. The candidate's role will involve teaching undergraduate and postgraduate tutorials and seminars.

We encourage joint research projects within our team as well as projects and exchange with international partners. To facilitate this, we hold a seminar series with speakers from Europe and the U.S. and host several renowned academic visitors each semester. There is a regular internal as well as an interfaculty seminar for members of the Institute to present and discuss work in progress.

If you are interested in working in a motivated team with an international, research-focused and interdisciplinary orientation, please send your application with the usual documents electronically or by post to one of the following addresses. Application deadline is 14 July 2013.
